121 MINING INVESTMENT

8-9 FEBRUARY 2016 CAPE TOWN

121 Mining Investment Cape Town

8-9 February 2016 - Welgemeend, Cape Town

Held on the eve of Africa's biggest mining industry gathering, 121 Mining Investment Cape Town offers an independent forum where mining executives and institutional investors can connect, build relationships and forge deals in the beautiful setting of an historic Cape Town manor house and gardens.

Register for the event to enjoy an interactive two-day conference featuring investment strategies, market analysis and capital raising ideas, and a programme of 1-2-1 meetings matching investors with quality mining projects.

RIU Explorers Conference

is expected to be supported by China and India
le commodities – zinc, nickel, meat, edible oils and sugar
times are ramping up, although this is pushing prices lower

HSBC

24 & 25 February 2016

**The Esplanade Hotel Fremantle - by Rydges,
Western Australia**

The RIU Explorers Conference began in February 2002 at a time when the resources industry was just starting to pull out of a long period of malaise. The 250 delegates there witnessed the first signs of recovery and many junior stocks got their first kick in investment that led to some of them becoming strong mid to high cap stocks. At the same time many in the supply industry used this event as a springboard to the growth that set themselves for many years of strong profits.

Since then the industry has been through the resources boom, the GFC, the immediate short term recovery and an investment crisis. Over the past year, however, we have just started to see a return to investment in resources stocks that will hopefully lead to better times in the next 6 to 12 months. Through all of this the RIU Explorers Conference has grown to an event which fills the Esplanade Hotel Fremantle by Rydges with 50 Exhibition booths and has regularly attracted between 700 and 800 delegates. It is the event that starts the Australian Resources Conference Calendar and is always the most optimistic and eagerly awaited event.

Now in its 15th year the two day event features CEO's, Operations and Exploration Managers of the best mining and exploration companies as well as new emerging explorers; providing a venue to garner investment and to meet with other resources industry professionals to discuss new options and progress their business.

RIU Conferences invites you to attend and network, get informed, and invest at the 2016 Explorers Conference.

11 & 12 May 2016 Sofitel Sydney Wentworth, New South Wales

The RIU Sydney Resources Round-up has built its reputation over the past 12 years by not only meeting but exceeding the expectations of its attendees at what is now considered one of the leading mining investment conferences in Australia.

A large contingent of stock brokers, together with high quality private investors, provides the ideal conference environment to greatly assist in forming new relationships between investment groups and resources executives.

The highly attended auditorium also provides the perfect outlet for resources executives to present their latest exploration and mining developments, as well as providing outlooks from well researched specialists discussing domestic and international financial and commodity sectors.

The conference's popularity has seen it in recent years support the most number of resources company presentations at any east coast Australian resource conference across the year.

The culmination of these elements present a unique opportunity to network, get informed and invest and for this reason RIU Conferences warmly welcome you and look forward to your attendance at the 2016 event.
