

Australian Mining Conferences 2016

A quick easy to follow list of some of the main mining conferences being held in Australia that as an investor you should attend

In October 2015, Vertical Events launched the inaugural **TechKnow Invest Roadshow** which involved listed and unlisted Technology Companies presenting to over 450 investors in three Australian cities.

The event was an overwhelming success with over half of the listed Company share prices rising over 100% during and post event. Over \$15 million was raised by the presenting Tech Companies at the inaugural **TechKnow** event.

Due to the success of Series One, Vertical Events moved quickly to hold **Techknow Series Two** in April 2016.

Another outstanding event with more than 650 investors attending Series Two, and over \$50 million has been raised by the Series Two participants since the event. Vertical Events is now very pleased to announce that planning is underway for Series Three, to be held October 2016. If you are a serious investor you do not want to miss this event!

The dates and venues for Series Three TechKnow Invest Roadshow are:
