

# Australian Mining Conferences 2016

A quick easy to follow list of some of the main mining conferences being held in Australia that as an investor you should attend

## **RIU Sydney Resources Round-up**

*Australia's Leading Corporate Mining Investment Forum*

The RIU Sydney Resources Round-up has built its reputation over the past 12 years by not only meeting but exceeding the expectations of its attendees at what is now considered one of the leading mining investment conferences in Australia.

A large contingent of stock brokers, together with high quality private investors, provides the ideal conference environment to greatly assist in forming new relationships between investment groups and resources executives. The highly attended auditorium also provides the perfect outlet for resources executives to present their latest exploration and mining developments, as well as providing outlooks from well researched specialists discussing domestic and international financial and commodity sectors.

The conference's popularity has seen it in recent years support the most number of resources company presentations at any east coast Australian resource conference across the year.

The culmination of these elements present a unique opportunity to network, get informed and invest and for this reason RIU Conferences warmly welcome you and look forward to your attendance at the 2016 event.

**Venue** The venue for the RIU Sydney Resources Round-up is the refurbished conference centre at the Sofitel Sydney Wentworth. The hotel is in the heart of the business and financial area of Sydney. The world-famous Sydney Opera House and Harbour Bridge are located nearby and museums, galleries, cinemas, theatres, the Royal Botanic Gardens, bus, train and ferry transport and the historic area of The Rocks are all on your doorstep.
