## 2015 Australian Copper Conference

16 & 17 June 2015

Hilton Brisbane Hotel, Queensland

The Australian Copper Conference provides one of the few corporate events dedicated solely to the copper environment. In the last five years the Conference has grown to be an essential corporate event for all major participants engaged in the copper industry. The Australian Copper Conference has built its reputation around the “core to consumer” perspective, catering for a variety of topics including exploration, developing, mining, financing, suppliers and investors.

Since 2010, The Australian Copper Conference has successfully brought together Australia’s leading players in the copper mining sector with an audience of industry experts and bona-fide retail and institutional investors eager to discover who the big winners will be in this valuable market sector going forward.

The Conference provides the ideal environment for delegates to hear from the experts outlining the latest market developments and the impact these outcomes can have on the copper industry. The Conference networking functions are a great place to build relationships by engaging with senior decision makers and existing clients.
