

Australian Mining Conferences

2016

A quick easy to follow list of some of the main mining conferences being held in Australia that as an investor you should attend

The annual Diggers and Dealers mining conference combines presentations by listed mining and exploration companies with a large exhibition area housing exhibitors from the mining, exploration and service sectors.

Diggers' as it is more commonly called by most in the industry, is a one of a kind event on the global mining events calendar and delegates get to enjoy the Kalgoorlie experience, the unofficial gold mining capital of Australia.

A delegation of 150 back in 1992 has now reached a record high of 2400 for the three-day and three-night event. The Forum has developed into an enduring mining industry event,

thanks in no small part to the support of industry leaders worldwide.

The delegation is made up of mining and exploration companies, brokers, bankers, investors, financiers and mining service industries.

A 70 strong media contingent ensures that the proceedings of the Forum are widely reported.

Look forward to seeing you there.
