

**The 9th annual Australian Uranium and Rare Earths Conference,
is Australia's leading Uranium and Rare Earths event.**

This year's highly regarded Conference will be held at the Esplanade Hotel Fremantle by RYDGES on

16 & 17 July 2013

A very much international event with some of the 500 delegates who attended the Australian Uranium Conference in 2012 flying into Fremantle from Canada, France, Germany, Japan, USA and the UK.

Presentations from a number of world class uranium Companies including Areva, Cameco Australia and Paladin Energy, coupled with keynote presentations from Australian Government Officials, headlined by the Hon. Gary Gray the Minister for Resources and Energy.

The Australian Uranium and Rare Earths Conference provides a great opportunity to meet uranium and rare earths company representatives, commodity buyers, brokers, fund managers, retail investors and government representatives – this event is the number one event for both the Uranium and Rare Earths industry.

As a reader of

you are welcome to attend the Australian Uranium and Rare Earths conference for

free

(please note those employed in the resources or associated industries are not eligible for this offer).
